Ritesh Kumar Paswan

LinkedIn: linkedin/riteshpaswan
GitHub: github/Ritesh2332
Email: riteshkumarpaswan538@gmail.com
Mobile: +91-9555512801

Skills

Languages: C/C++, Java, Python
Frameworks & Libraries: HTML and CSS, Scikit-Learn, TensorFlow, ML
Tools & Platforms: MySQL, Excel, Power BI, Git, Jupyter
Core CS Fundamentals: DBMS, OS, CN, SQL
Soft Skills: Time Management, Problem-Solving, Analytical Thinking, Adaptability

Projects

Prison Analytics & Rehabilitation Dashboard (India) | GitHub Repo Dec' 25 – Dec' 25

- Analyzed multi-source Indian prison datasets covering **30+** states/UTs and **~1.3M** inmates, including demographics, rehabilitation, vocational training, and under-trial indicators.
- Built a 4-page interactive Power BI dashboard with **20+** KPIs and visuals (treemaps, heatmaps, geo maps, conditional formatting) to highlight overcrowding levels exceeding **150%** capacity in high-risk regions.
- Developed DAX measures (Rehabilitation Rate, Training Coverage, Death Rate, YoY trends) to normalize state-wise performance and support evidence-based policy insights.
  Tech stack: Power BI, DAX, Power Query, SQL, Excel

Employee Performance Segmentation for HR Insights | GitHub Repo Jun' 25 – Jul' 25

- Conducted HR analytics to analyze and segment employees based on performance, demographics, and engagement metrics, improving segmentation clarity by **30%.**
- Delivered comprehensive data preprocessing, exploratory data analysis (EDA), and SQL-based performance insights, which reduced data noise and inconsistencies by **25%.**
- Presented analytical findings and workforce KPIs through interactive Power BI dashboards for actionable insights.
  Tech stack: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Power BI, Jupyter Notebook

Mortgage Calculator Chatbot | Live Demo May' 25 – May' 25

- Built an AI-powered mortgage calculator using Gemini API and Streamlit, which enabled real-time payment computation and personalized financial guidance.
- Implemented secure API key management with a clean, responsive web interface for smooth user interaction.
- Added dynamic user prompts to provide tailored mortgage insights, to enhance accuracy and overall user experience.
  Tech stack: Python, Streamlit, Gemini API(Google), python-dotenv, Git, GitHub, Google AI Studio

Training

Centre for Professional Enhancement | From Data to Insights | Link Jun' 25 – Jul' 25

- Applied hands-on data cleaning, analysis, and visualization tasks across structured datasets using industry tools.
- Delivered accurate insights and built ML-driven solutions to enhance data interpretation and decision-making outcomes.
  Tech stack: Excel, SQL, Python (NumPy, Pandas, Scikit-Learn), Power BI, ML Algorithms

Certificates

- Data Science Professional – Oracle | **Link** Oct' 25
- Programming in Java – Neo Colab **| Link** May' 25
- Data Structures and Algorithm – Neo Colab **| Link** Dec' 24

Achievement

- Solved 200+ coding problems across **LeetCode** & **GFG** enhancing problem solving skills Feb' 26
- **Achieved 1st rank in LexiQuiz** – A Competition on Grammar and Vocabulary: May' 24
  Organized by the Centre for Professional Enhancement, Lovely Professional University

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.14*** *Aug' 23 - Present*
- **Divine Public School** Gorakhpur, U.P.
  Intermediate; ***Percentage: 76%*** *Apr' 21 – Mar' 22*
- **Divine Public School** Gorakhpur, U.P.
  Matriculation; ***Percentage: 62%*** *Apr' 19 – Mar' 20*
